CURRICULUM VITAE

Giovanni Maglio

MSc Student in Physics — University of Milan

giovanni.maglio@studenti.unimi.it +39 333 230 6904

Personal website Crema, Italy

Education

MSc in Physics October 2025 – Present
University of Milan, Italy

BSc in Physics October 2022 – October 2025
University of Milan, Italy Final grade: 102/110

Research Interests

Quantum gravity and black holes; black-hole microstates and holography (AdS/CFT); quantum field theory, string theory and mathematical physics.

Research Project

Bachelor's Thesis 2025

Uncertainties in the parametrization of the proton and determination of the electroweak parameters in the Standard Model Lagrangian

Supervisor: Prof. Alessandro Vicini, University of Milan.

Download bachelor's thesis (PDF)

Technical Skills

Programming: C, C++, Python, Bash.

Scientific computing: Mathematica, ROOT, LHAPDF, POWHEG.

Computing and development: Linux, Git, Slurm, high-performance computing.

Typesetting: LaTeX.

Selected Master's Coursework

Gravity and Superstrings I	30/30
Theory of Fundamental Interactions I	30/30 *cum laude*
Mathematical Methods in Physics: Geometry and Groups II	30/30 *cum laude*
Electroweak Interactions	30/30 *cum laude*
Classical Electrodynamics	28/30
General Astrophysics I	28/30

Additional courses in the MSc study plan:
Quantum Field Theory I and II; Gravity and Superstrings II; Algebraic Topology; Theory of Fundamental Interactions II; Mathematical Methods of Quantum Mechanics.

Teaching Experience

Private Tutor 2022 – Present

Mathematics, Physics, Computer Science and Chemistry.

Languages and Additional Interests

Languages: Italian (native); English (B1, CEFR).

Interests: Classical piano, literature and philosophy, hiking and fishing. Writing book reviews on RecenSito.
